Modern Slavery Statement 2023 (2024)

Introduction

This statement provides background to our organisation and our supply chain and sets out the steps we have taken to ensure that slavery and human trafficking is not taking place in our organisation and supply chains.

This statement is published in line with section 54(1) of the Modern Slavery Act 2015, for the financial year ending 31st March 2024.

Organisation structure and supply chains

SMC Corporation (UK) Ltd is a wholly owned subsidiary of SMC Corporation of Japan, which is the global market leader in automation and fluid control equipment.

The UK operation is principally concerned with the resale of products mass-produced in the corporation's primary factories in Japan, China, Singapore and Vietnam, while the UK factory configures product, designs and manufactures specials and assemblies for the local UK market. UK production is supplied by the corporation's factories with locally sourced raw materials and components.

SMC's target markets are automotive, food, life science, electronic, and semiconductor, served both direct and through its network of UK distributors.

Due Diligence, Risk Assessment and Management

Suppliers are graded in terms of risk of the possibility that modern slavery may occur within these supply category /groups. We have three risk groups 1,2 and 3. Depending on the risk level the supplier is required to provide Modern Slavery statements or agree to guaranteeing compliance to the regulations, all new suppliers must complete our supplier questionnaire. The procurement team audit supplier responses to ensure that all its suppliers share its values and take a zero-tolerance approach to modern slavery. Risk assessments are carried out annually.

We regularly monitor the effectiveness of our anti-slavery measures and report on our progress through:

Key performance indicators (KPI's): Tracking the number of supplier audits conducted, instances of non-compliance identified, and actions taken.

- In 2023/2024 SMC procurement/QA team carried out 11 supplier audits, with no modern slavery concerns.

If the supplier fails to comply with the modern slavery clauses, then SMC (UK) Ltd will terminate the use of that supplier for any purchases or services.

SMC (UK) Ltd also draws its ethical approach, including modern slavery, to potential new suppliers via the questionnaire & verification document, when tendering for new services or supply. This ensures new suppliers are made aware at an early stage of the expectations and obligations SMC Corporation (UK) Ltd will place on them if they are successful in becoming one of its suppliers.

Conflict Minerals

SMC (UK) Ltd has recognised that there is a high incidence of human rights violations (including modern slavery) in connection with the supply of conflict minerals. Since 2013, SMC (UK) Ltd uses the current CMRT list to ensure that it is not contributing to these violations.

In the event of an issue being highlighted, SMC will investigate and take appropriate action.

- In 2023/2024 SMC procurement team had no incidents connected to modern slavery concerns from conflict mineral suppliers.
