

DECLARATION for Products out of scope of Directive 2014/34/EU (ATEX Directive)

The company
SMC Corporation
4-14-1, Sotokanda, Chiyoda-ku
Tokyo 101-0021
Japan

Certifies that the following non-electrical products do not fall under the scope of Directive 2014/34/EU. Following an ignition hazard assessment, it was determined that these products have no potential ignition sources of their own.

These products can only be used in Zone 1 and 2 for gas explosive atmosphere and Zone 21 and 22 for dust explosive atmosphere. ^{See note}

The basis of this declaration is the ignition hazard assessment made on the representative samples of the product series.

[Name]
Time Delay Valve

[Series]
VR2110-(F,N)01-X219

Note: This declaration is applicable as long as the products are used according to the specification in the catalogue or operation manual and under the following additional conditions:

- Limited to explosive atmospheres type IIA and IIB.
- It is the circuit designer's responsibility to ensure significant heat generation due to compression of operating gas does not occur.
- The explosive atmosphere is not allowed to enter the pneumatic circuit, even in case of expected malfunction.
- All exhaust ports to be piped outside of the Ex zone.
